WELCOME

lifetime

Projects

I'm an **Versatile Designer** who strives to marry the love of art by finding a harmonious balance between The golden ratio and aesthetics.

Lifetime projects are the gain years I have been designed and manufactured.

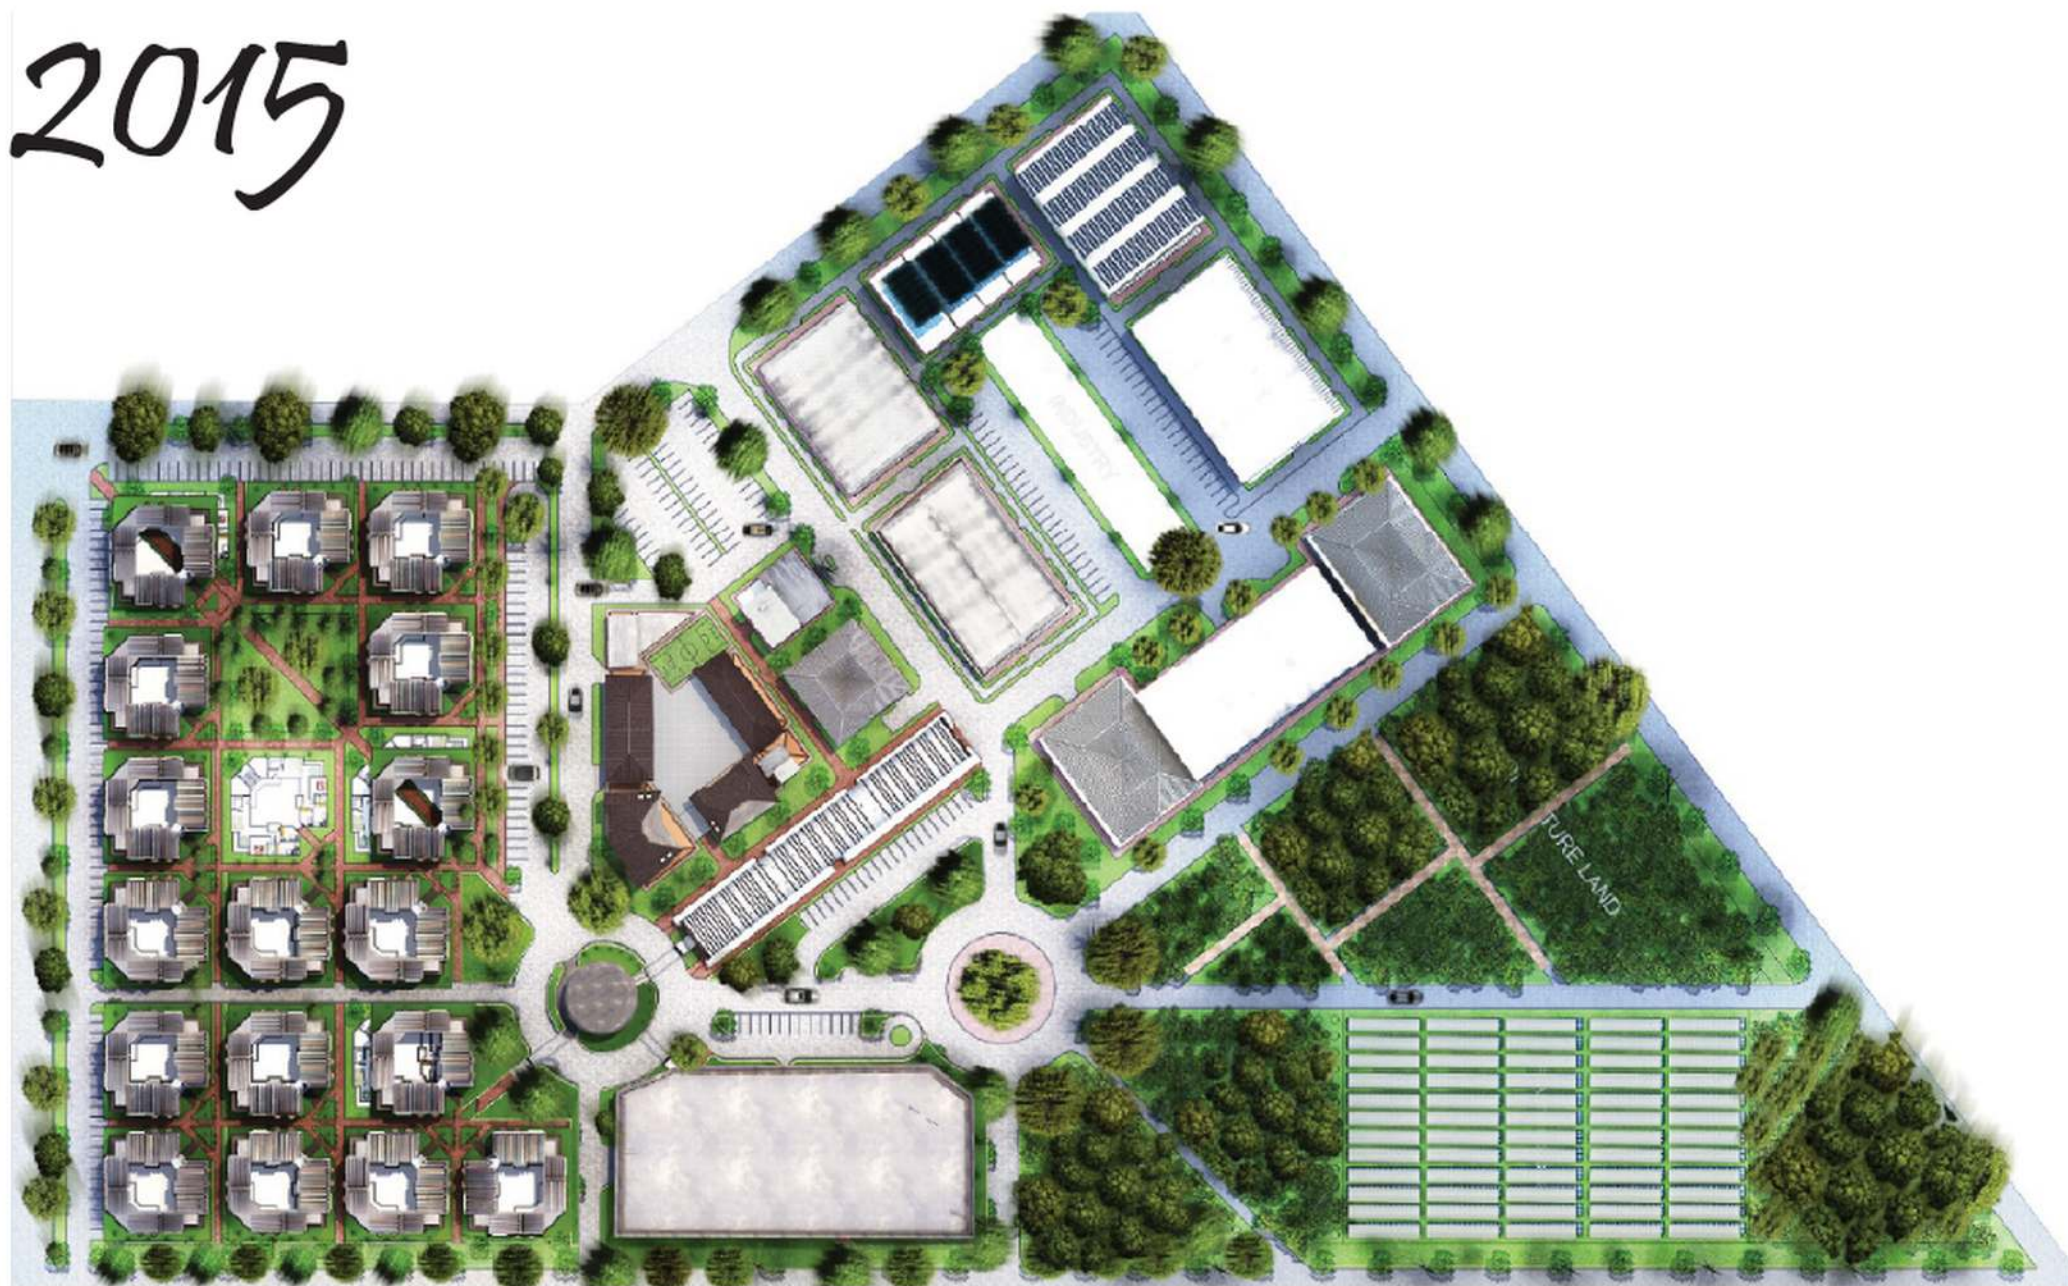

My long-term goal is to build
a new layer of the Art industry, where design is more
creative, artistic, and meaningful

Exterior works

Rendering

Client profile

For a public space to attract people and encourage them to be part of the communal use of these places, it needs to possess certain design characteristics that make for a good quality location.

Streets, squares, and sidewalks that connect with public spaces need to allow equal access to all residents.

Designed by Architect Ahmad Deleh

Perform by :

This modern space, with its clean lines and recessed lighting, feels like a corporate apartment. A place to relax after a long day without any unnecessary frills.

The large sectional sofa in this living room would be easy to sink into from any angle. A low coffee table and tall floor lamp create interesting vertical levels.

This ultra modern living room plays on the theme of wood and white, bringing it to bear in the furnishing and floor coverings.

The ceiling with the fluid hidden light adds contrast in both color and style

Spa Center

Cyberjaya
Malaysia

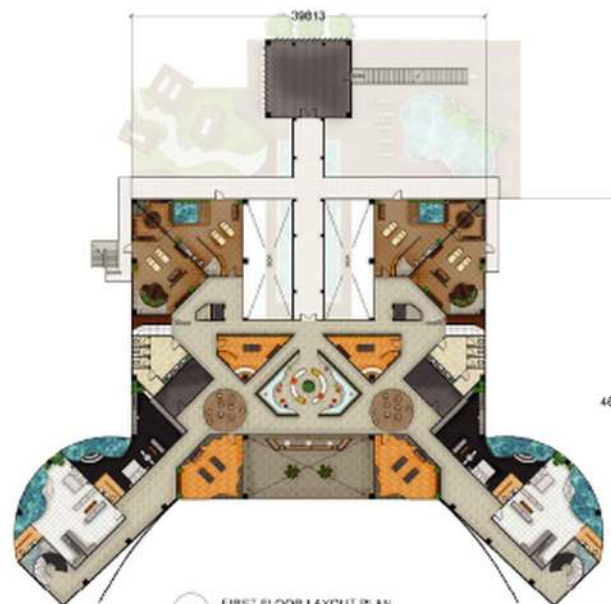

Working on the project, designers wanted to maximally integrate the SPA into the environment. As a result we created an area where simplicity and minimalism prevails. Here nature is at the forefront, and nothing distracts from a good rest.

New Classic Apartment

Client profile : luxury modern living room. Selection of colors, the off white, brown, black, gave the room a moderate ambience between neoclassical and modern with a golden touch of arabic patterns.

The chosen materials were dictated by the existing palette, Marble floors, cedar and black finishes for the walls. This repetition allows a sensitive integration throughout the whole house. The objective of the intervention is to accommodate the program of a contemporary way of living in a pre-existing built frame, and the generation of a quiet dialogue between new and old.

KLIKE Interior Design

As sunlight streams in from overhead skylights, it illuminates the clean lines and carefully chosen furnishings in this lovely top level apartment. The bold zebra print rug, each piece plays together for a cozy bohemian feel.

The **dining room** becomes the centre of family life. A well designed dining room not only tackles the functional aspect of serving and dining food, it also encourages conversation among family members.

Perform by :

Modern Kitchen

The **kitchen** design is deceptively simple with clean lines and finishes, yet still manages to encapsulate an enormous amount of storage, perfect for a family home of this size. The sliding doors allow the kitchen to expand to the alfresco area.

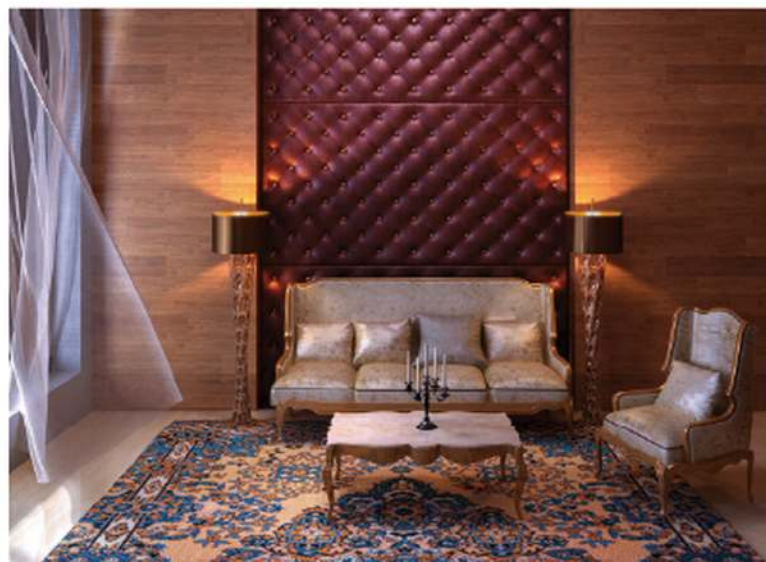

February 2016

Luxury Majlis

This **luxury** Majlis ends with a gorgeous apartment in Qatar, defined by its contrast between classically inspired furniture and highly contemporary accessories. Built-in storage caters to the functional demands of a space as streamlined as this one, while the bold decorative elements serve as straightforward focal points.

February 2017

Office

Dubai, UAE

The custom reception desk, clad in dark marble with subtle veining and a ribbed wood base accented by ambient lighting, anchors the space. Clean lines and integrated LED lighting in the ceiling emphasize architectural clarity and modernity. Behind the desk, a sophisticated feature wall with vertical wooden panels and an illuminated signage area enhances the brand identity.

2024

Modern CEO Area – UAE Office

Strategic use of greenery in sculptural planters introduces biophilic elements, softening the aesthetic while maintaining a high-end, corporate feel. The design balances luxury and simplicity, offering a welcoming yet efficient environment for clients and visitors alike.

LOGO CONCEPT

The GamerX logo concept is inspired by a PC case and the "PUBG drop box." The logo features the letters "G" and "X" in a 3D effect, set within a stylized PC case. The overall design is intended to be modern, bold, and visually striking, reflecting the gaming theme of the brand.

The key elements of the logo concept:

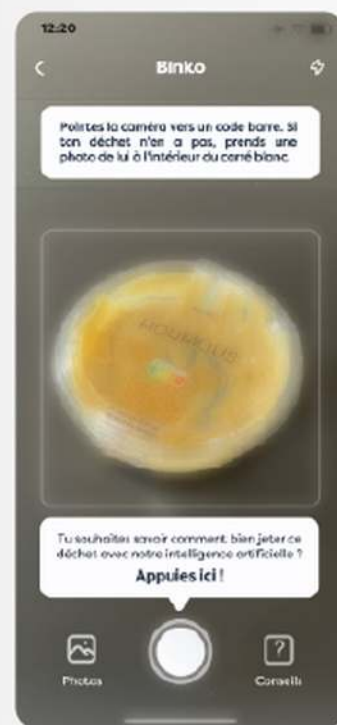

PC Case: The logo incorporates a stylized representation of a PC case, which is a common element in gaming culture.

3D Effect: The letters "G" and "X" are rendered in a 3D style, adding depth and dimension to the design.

Multi Vendor System

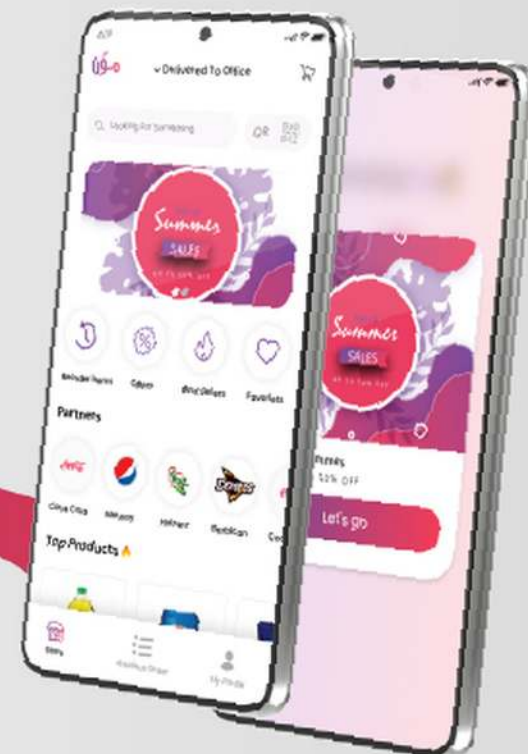

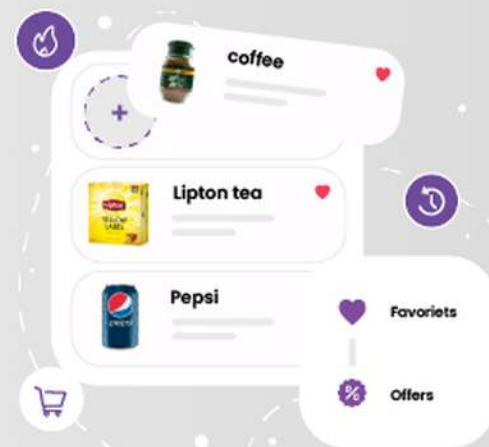

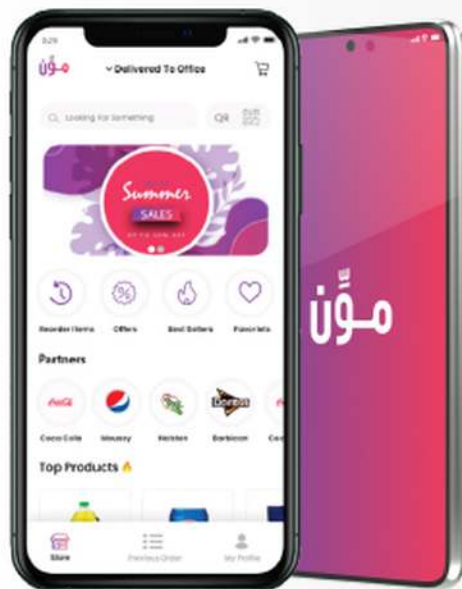

Mawen

Project: Multi Vendor System eCommerce Platform

This project involved designing the user interface and user experience for a comprehensive multi-vendor eCommerce platform. The system allows multiple vendors to register, manage their products, and process sales within a unified marketplace. My responsibilities included crafting intuitive, visually appealing interfaces for both vendor and customer portals, ensuring seamless navigation, and enhancing overall user engagement. The design focused on usability, responsiveness, and a clean aesthetic to facilitate efficient vendor operations and a smooth shopping experience for users. The project aimed to create a scalable and user-friendly platform that supports multiple vendors and provides real-time analytics and management tools.
